Re: In the Matter of the Formal Complaint of Laurel Capital Partners Against Delmarva Power Regarding the Application of the GSP Tariff Rate to a Solar Array on the Rate X Tariff – Docket No. 16-0105

Dear Hearing Examiner Lawrence:

You had approved a request for a temporary stay in this docket which expires today. The parties are continuing to work through the issues with the intent of entering into a settlement agreement, but additional time is necessary in order to complete the process. As such, the parties are requesting an additional extension until August 5, 2016 to finalize their negotiations and execute a settlement agreement.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to contact me.

Respectfully submitted,

Pamela J. Scott
